

## **CHILDREN FIRST**

*St. Ita's A.F.C. is committed to providing a safe and positive environment for all our members participating in the club's activities particularly for those in their formative years. The safety and welfare of each child will be one of our main priorities and take precedence over all other considerations. The club will ensure that this policy is incorporated into all clubs policies and activities and that every team manager/coach within the club is familiar with the policy and principles that underpin it. It is the duty of all adults involved in the club to ensure that this policy is followed at all times.*
